

STEER ENGINEERING PRIVATE LIMITED

[BENGALURU & COIMBATORE]

IMS Policy (Quality, Environment and OH&S)

We at STEER ENGINEERING are involved in Design, manufacture, supply and servicing of Co-rotating twin screw extruders, extruder parts and peripherals. We are driven by innovation and work with a vision to 'steer a new world'.

We are committed to fulfill the needs and expectations of the stakeholders and roll out our processes in a manner that enables protection of environment through prevention of pollution. We are also committed to improve work place safety through effective participation and consultation of personnel.

In order to realize the above commitments, we shall:

- Deliver products and services which meet or exceed customer requirements and expectations.
- Strive to achieve right first time and right every time in all our processes.
- Comply with legal requirements and other requirements relevant to Products / services, environment and Occupational health & safety through a structured process of identifying the applicable requirements and evaluating the status of compliance periodically.
- Achieve Continual improvement of IMS Processes by identifying opportunities for improvement, establishing measurable objectives.
- Develop environmental friendly processes and products, Conserve natural resources, reduce or recycle waste generated arising from our processes by adapting latest technology.
- Eliminate hazards, reduce OH&S Risks through ongoing hazard identification & risk assessment and deployment of appropriate risk controls to prevent injury and ill-health to personnel.
- Develop awareness on IMS requirements, Environmental issues, OH&S risks and related control measures among employees and business associates through training and participation.
